Eastern District of Pennsylvania, to wit:

BE IT REMEMBERED, that on the twenty-ninth day of March, in the fifty-second year of the independence of the United States of America, A.D. 1828, Hugh L. Hodge, Franklin Bache, Charles D. Meigs, Benjamin H. Coates, and René La Roche, of the said district, have deposited in this office the title of a book, the right whereof they claim as proprietors, in the words following, to wit:

"*The North American Medical and Surgical Journal. Published by the Kappa Lambda Association of the United States. Non doctior, sed meliore imbutus doctrina. Vol. V.*"

In conformity to the act of the Congress of the United States, entitled, "An act for the encouragement of learning, by securing the copies of maps, charts, and books to the authors and proprietors of such copies during the times therein mentioned;" and also to the act, entitled, "An act supplementary to an act, entitled, 'An act for the encouragement of learning, by securing the copies of maps, charts, and books, to the authors and proprietors of such copies during the times therein mentioned,' and extending the benefits thereof to the arts of designing, engraving, and etching historical and other prints."

D. CALDWELL,
Clerk of the Eastern District of Pennsylvania.

CONTENTS OF VOLUME V.

No. IX.

ORIGINAL COMMUNICATIONS.

I. On the Mechanism of Preternatural Joints, and on the Means of Cure. By Thomas T. Hewson, M.D. 1

II. Case, where a Communication had been established between the Ovaria and Bladder. By J. Marshall Paul, M.D. 12

III. Observations on Colica Pictonum, and other Affections arising from Lead. By Richard Harlan, M.D., &c. 16

IV. On Hæmoptysis. By D. Francis Condie, M.D. 23

V. Case of Lumbar Abscess connected with Ascites, occurring in the Baltimore Alms House. By Thomas H. Wright, M.D. . . . 38

VI. Case of Gouty Inflammation cured by Vaccination over the diseased part. By D. Theodore Coxe, M.D. 46

VII. Description of a Disease which occurred in the Pennsylvania Institution for the Deaf and Dumb. By G. B. Wood, M.D. . . . 47

VIII. Cases illustrative of the Curative Effects of Copious and Long Continued Affusions of Cold Water in External Inflammations. By L. S. Tillet, M.D., of Lancaster, Pennsylvania. 58

IX. Account of a New Form of Bronchial Disease. By William Darrach, M.D. Read before the Kappa Lambda Society. 62

X. Case of Diseased Brain. By Henry Bond, M.D. 65

XI. Remarks on the Eruptive Disease produced by the Internal Use of Balsam Copaibæ. By Thomas T. Hewson, M. D., &c. . . . 72

XII. Account of Operations for the Stone performed by M. Civiale. In a Letter to Dr Hodge, from R. La Roche, M.D. 74

ANALYTICAL REVIEWS.

XIII. Dublin Hospital Reports. Concluded. (Containing accounts of the Stethoscope, and other valuable matter.) 85

XIV. Traité de la Maladie Scrophuleuse. Par C. G. Hufeland, Traduit de l'Allemand, et accompagné de Notes; par J. B. Bousquet, &c. Suivi d'un Memoire sur les Scrophules, et quelques reflexions sur le Traitement du Cancer; par M. le Baron Larrey. A Paris. 1821. 118

MEDICAL LITERATURE.

XV. Retrospective Review.—The Medical Works of Edward Miller, M.D., late Professor at New York, and resident Physician for that City. With a Biographical Sketch of the Author. By Samuel Miller, D.D. &c. New York. 1814. 127

PROCEEDINGS OF THE MEDICAL SOCIETY.

XVI. Report of the Committee on Quack Medicines. 149

BIBLIOGRAPHICAL NOTICES.

XVII. Elements of Operative Midwifery; comprising a Description of certain New and Improved Powers. With Plates; and with Cautionary Strictures. By David B. Davis, M.D., &c. &c. London, 1825. 184

XVIII. Observations upon the Origin and Latent Period of Fever. By Henry Marsh, A.B. M.D. M.R.I.A., &c. &c. 186

XIX. De l'Irritation et de la Phlegmasie; ou Nouvelle Doctrine Médicale. Par Victor Prus, D.M. Paris. 1825. 190

XX. Electro-Magnetism. Being an Arrangement of the Principal Facts hitherto discovered in that Science. With Plates. By Jacob Green, M.D., Professor of Chemistry. Philadelphia. 1827. . . 192

QUARTERLY SUMMARY OF MEDICAL INTELLIGENCE.

I. Anatomy.—1. Lymphatics. 194

II. Physiology.—2. Jouffroy on Sleep. 3. M. Hufeland's Remarks on Sex. 4. New Theory of Vision. 5. Functions of the Cerebellum. 6. Connexion of the Ovum to the Mother. 194

III. Pathology.—7. Gangrenous Abscess of the Lungs. 8. The Liver. 9. Dr Horner's Observations on the Colour of Mucous Membranes. 10. New Test for Soundness of the Lungs. 11. Pneumophthisis Cyanotica, Phthisis Pulmonalis with Cyanosis. 12. Dr Clarke, of Dublin, on the Gangrene of the Mouths of Children. 13. On the same. 14. Account of a Cyst in the Tuber Annulare. 200

IV. Practice of Medicine, Therapeutics, and Materia Medica.—15. Compression by a Roller in Acute Rheumatism. 16. Tincture of the Leaves of Stramonium, in Neuralgic Affections. 17. Bark of the Root of the Pomegranate Tree in Tænia. 18. Tannin in Menorrhagia. 19. Pretended Sulphate of Jalapine. 20. Filings of Silver in Intermittent Fever. 21. Cure of Amenorrhœa and Fluor Albus. 22. Cure for Tænia. 23. Effects of Bi-Chromate of Potass. 24. Hydrocyanic Acid in Chorea. 25. Employment of Iodine in the Treatment of Cynanche Parotidæa. 26. Iodine, a cure for Chorea. 27. Treatment of Cramp of the Stomach produced by Tartar Emetic. 28. On the Nature and Treatment of Colica Pictonum. 29. Colica Pictonum treated by

Dr Ranque, Physician to the Hotel Dieu at Orleans. 30. Acute Gastro-Cerebral Inflammation, accompanied by symptoms of Hydrophobia, Hydrocephalus, Arachnitis, &c. 31. Rheumatism, Inflammation of the Spinal Marrow. 209

V. Medical Jurisprudence.—32. Account of the Medical Evidence in the Case of Mrs Smith, tried for Poisoning. 218

VI. Surgery.—33. Aneurism. Ligature beyond the Tumour. 34. Dislocation of the Humerus. 35. Dislocation of the Femur. 36. Extirpation of an Ossified Septum of the Corpora Cavernosa Penis. 37. Aneurism by Anastomosis. 38. Mydriasis, Hemeralopia, &c. 39. Fracture of the Humerus, by Muscular Contraction. 40. Lithotomy. 41. New Mode of Dressing Ulcers. 42. Excision of a Portion of the Humerus. 43. Rupture of the Bladder. 44. Empyema with Pneumo-Thorax. 45. Dangerous Hœmorrhage from Varicose Veins. 46. Amputation of the Neck of the Uterus. 47. Osteo-Sarcoma of the Lower Jaw. 48. Strictures of the Rectum. 49. Peculiar Disease of the Lower Jaw. 50. Urethro-tome. 51. Moxa. 52. Puncture of the Bladder above the Pubis. 53. Empyema. 54. Phlebitis. 55. Spasmodic Strictures. 226

VII. Midwifery.—56. The Cæsarian Operation, successfully performed twice on the same Individual. 57. Vomiting in Pregnancy. 58. Hysterotomy per Vaginam. 59. Premature Labour. 60. Cæsarian Operation. 235

VIII. Chemistry and Pharmacy.—61. Continuation of Dr Wœhler's Experiments on the Passage of Substances into the Urine. 62. Residuum of Nitre, after Exposure to a red heat. 237

MISCELLANEOUS. 243

No. X.

ORIGINAL COMMUNICATIONS.

I. Observations on Congenital Club-Foot. By Henry Neill, M.D. Physician Accoucheur to the Alms-House Infirmary. Read before the Philadelphia College of Physicians. 245

II. Case of Caries of the Tibia. Communicated by Josiah R. Horn, M.D. of Stantonsburgh, North Carolina. 249

III. Practical Observations on the Datura Stramonium. By M. Cunningham, M.D. Arkansas Territory. 252

IV. A Description of a Peculiar Ulcerated State of the Scrotum which had been mistaken for a Malignant Disorder of the Testicle. By J. Randolph, M.D. 257

V. Case of Incipient Phthisis, in which Digitalis was successfully employed. Reported in a Letter to one of the Editors by Samuel B. Smith, M.D. Surgeon in the United States Army. 261
VI. Experimental Inquiry on the Influence of the Pneumo-Gastric Nerves. By Edward R. Ware, M.D. of Georgia. 264
VII. Case of Chronic Headach successfully treated with Fowler's Arsenical Solution. By John C. Otto, M.D. one of the Physicians of the Pennsylvania Hospital. 268
VIII. Observations on Affections of the Mammæ, liable to be mistaken for Cancer. By Joseph Parrish, M.D. one of the Surgeons of the Pennsylvania Hospital. 269
IX. Remarks on Phlegmasia Dolens. By R. M. Huston, M.D. . . 278
X. On the Administration of Tartarized Antimony, in large doses, in some of the Phlegmasiæ. By James Kitchen, Jun. M.D. . . 292
XI. Case of Irritability of the Stomach. By John Hopkinson, M.D. . 307
XII. Cases of Ulceration of the Intestines. By George S. Bettner, M.D. of North Carolina, one of the Senior Students of the Philadelphia Alms House Infirmary. 312
XIII. Remarks on Yellow Fever: being an Attempt to explain the Cause of this Disease first appearing along the Wharves of Sea Port Towns. By Samuel Emlen, M.D. One of the Physicians of the Pennsylvania Hospital. Read before the Philadelphia College of Physicians. 321
XIV. Description of an Instrument for dividing Strictures of the Urethra. By E. R. Chew of Louisiana. 341

ANALYTICAL REVIEWS.

XV. Chemical Manipulation; being Instructions to Students in Chemistry on the Methods of performing Experiments of Demonstration or of Research with accuracy and success. By Michael Farady, F.R.S. F.G.S. M.R.I. &c. &c. &c. London. 1827. 346
XVI. Traité de la Maladie Scrophuleuse, &c. Par C. G. Hufeland. . . 357
XVII. De l'Influence des Agens Physiques sur la Vie. Par W. F. Edwards, D.M. Membre associé de l'Académie Royale de Médecine de Paris; Membre de la Société Philomathique, de la Société de Médecine de Dublin, &c. A Paris, chez Crochard, Libraire, 1824, pp. 654, 8vo. 370

PROCEEDINGS OF THE MEDICAL SOCIETY.

XVIII. Report of the Committee of the Philadelphia Medical Society appointed to collect facts in relation to the recent occurrence of Small Pox in this City. 400

BIBLIOGRAPHICAL NOTICES.

XIX. The Eclectic and General Dispensatory: comprehending a System of Pharmacy, Materia Medica, the Formulæ of the London, Edinburgh, and Dublin Pharmacopœias, Prescriptions of many emi-

nent Physicians, and Receipts for the most common Empirical Medicines: Collated from the best authorities by an American Physician. Pp. 627. Philadelphia. Towar & Hogan. 1827. . 423

XX. Dissertation sur la Non-Réunion de quelques Fractures, et en particulier de celle du bras, et sur un moyen nouveau de guérir les fausses articulations qui en resultent. Presentée, &c. par J. B. La Roche, Ancien Chirurgien de premiere classe aux Armées, et Chirurgien major de l'Hôpital Militaire d'Huningue, &c. A Paris, 1805. 428

XXI. Transactions of the Medical Society of the State of New York for the year 1828; with the Annual Address by T. Romeyn Beck, M.D. President of the Society. Pp. 54. 431

QUARTERLY SUMMARY OF MEDICAL INTELLIGENCE.

I. Anatomy.—1. Organization and Use of the Spleen. 2. Hair. 3. Structure of the Biliary Ducts. 4. The Existence of a Canal in the Optic Nerve of the Human Fœtus. 5. Heart Exterior to the cavity of the Thorax. 6. Malformation of the Œsophagus. 7. Malformation of the Bronchiæ with Closure of the Glottis. 8. Transposition of the Ventricles of the Heart. 435

II. Physiology.—9. Section of the Pneumo-Gastric Nerves. 10. Regeneration of Nervous Tissue. 11. Respiration of the Infant when only the Head is born. 438

III. Pathology.—12. Phlegmasia dolens. 13. Vaccination and Small Pox. 14. Inoculation and Vaccination of Sheep. 15. Modified Small Pox, produced artificially among Sheep, for purposes of Protection. 16. Vaccination in Turkey. 17. Mercurial Tremors. 18. On Method in the Study of Medicine. 19. Gastro-enteritis. 20. Ecchymoses of the Skin, with œdema and gastro-enteritis. 21. Mania from Chronic Gastro-Enteritis. 440

IV. Practice of Medicine, Therapeutics, and Materia Medica.—22. Belladonna as a Preventive of Scarlet Fever. 23. Cure of Nasal Polypi. 24. Glossitis. 25. The Manna Gum Tree. Manna Eucalyptus. 26. Gastro-Enterites caused by the Emetico-Cathartic of Leroy. 27. Castor Oil a Cure for the Ring Worm. 28. Sand Baths. 29. Singular Effect of a Cantharides Plaster. 30. Hæmatemesis caused by per-carbonated Hydrogen. 31. Chloride of Lime for the Cure of Itch. 32. Hydro-sulphurous water in Colica Pictonum. 33. Sulphate of Quinine in Intermittent Fevers. 34. Fumigations of Chlorine in Phthisis Pulmonalis. 35. Epidemic Zona. 36. Constipation of the Bowels. 37. Remittent Fever in England in 1827. 38. Sulphate of Quinine externally applied. 39. Epilepsy of thirty years duration cured by a Burn. 40. Iodides of Sulphur in Cutaneous Diseases. 41. Polysarchia removed by free Depletion and the use of Iodine. 42. Hemlock as a remedy for the Itch. 43. Hydrorachis cured by Puncturing. 447

V. Medical Jurisprudence.—44. Medico-Legal Discussion on In-

sanity, by Dr Georget. 45. Means of Discovering Blood Stains on Arms and Clothing, and of distinguishing them from other Stains. 454

VI. SURGERY.—46. Glutæal Aneurism—Ligature on the Internal Iliac Artery. 47. Excision of the Nerve in Neuralgia. 48. Extirpation of a deep Seated Tumour of the Neck. 49. Carotid Aneurism. 50. Rupture of the Jejunum. 51. Periostitis. 52. Fracture of the Neck of the Femur. 53. High Operation. 54. Syphilis treated without Mercury. 55. Recto-Vesical Operation. 56. Abscess of the Loins, discharged by the Bronchiæ. 57. Cancer of the Lips. 58. Wounds from Rabid Animals. 59. Ligature of the Subclavian Artery. 60. Mr Wardrop's Case of Ligature on the Subclavian Artery for Aneurism of the Arteria Innominata. 61. Luxation of the Cervical Vertebræ. 62. Rhinoplastic,—Taliacotian Operation. 63. Lithontrity. 64. Gonorrhœa. 65. Lithotomy. 66. Caries. 67. Artificial Joint. 68. Axillary Aneurism. 459

VII. MIDWIFERY.—69. Gestation. 70. Labour artificially excited. 71. Difficult Labour. 72. Amputation of the Uterus. 73. Spontaneous Evolution of the Fœtus. 74. Removal of the Placenta. 468

VIII. CHEMISTRY AND PHARMACY.—75. New Method of preparing the Deutoxide of Barium. 76. Formation of Adipocere. 77. Human Bezoar. 78. Chemical Nature of the Matter of Melanosis. 79. Calculus containing Mercury. 80. Denarcotized Laudanum. 81. New Formula for obtaining Morphia. 82. Chemical Facts respecting Cinchona. 83. Proportions of Sulphate of Quinia furnished by different Samples of Bark. 84. Oxalate of Potassa-and-Antimony. 85. Method of preventing the Precipitation of Iron from Chalybeate Waters. 86. Mode of distinguishing Arrow Root from Wheat or Potatoe Starch. 471
